
Why Certify as a Project Manager?

A recent study showed of the over \$10 Trillion in Projects in this country, only 37% ever finish. Of the projects that finished, they averaged 180% of original schedule and 220% of budget. This is an improvement over the study 3 years before.

How do we improve this? The study says those using Certified Project Management Professionals showed a significant improvement in performance on their projects.

The Federal Government and now the State of Colorado are requiring PMPs for Projects over a dollar amount. This is to improve their chance for success.

Three Days

Preparing for the Future.

Earn 21 Contact Hours toward sitting for the PMP Exam.

Pass the PMP Exam on your first attempt.

Project Management has its own distinct language and it is an international language. With over 290,000 members and 250,000 certified Project Managers world wide, PMI has helped advance the profession and made strong project managers a key to successful companies. The PMP Certification means a lot to you and your company. You will understand how to pass the exam and the meaning of the International Standard.

This will help you gain effectiveness using the best Project Managements tools. This class will help you become certified, so that you and your company can compete for that new profitable business.

This class includes a 500 page Project Management Notebook, Rita Mulcahey's PMP Exam Prep Workbook and a PM Final Testing Tool with 3-200 question practice tests.

98% of our students pass the first time. Everyone says they learn allot and enjoy their experience.
